NATURE OF NOT PERMITTED WASTE

All hazardous waste, used oil, non-hazardous waste and dredging waste are allowed into the facility except for waste covered by the following codes:

01 03 Wastes from physical and chemical processing of metalliferous minerals

01 03 04* Acid-generating tailings from processing of sulphide ore

06 07 Wastes from the MFSU of halogens and halogen chemical processes

06 07 01* Wastes containing asbestos from electrolysis

06 13 Wastes from inorganic chemical processes not otherwise specified

06 13 04* Wastes from asbestos processing

10 03 Wastes from aluminium thermal metallurgy

10 03 15* Skimmings that are flammable or emit, upon contact with water, flammable gases in

10 05 Wastes from zinc thermal metallurgy

10 05 10* Dross and skimmings that are flammable or emit, upon contact with water, flammable gases in dangerous quantities

10 08 Wastes from other non-ferrous thermal metallurgy

10 08 10* Dross and skimmings that are flammable or emit, upon contact with water, flammable gases in dangerous quantities

10 13 Wastes from manufacture of cement, lime and plaster and articles and products made from them

10 13 09* Wastes from asbestos-cement manufacture containing asbestos

13 07 Wastes of liquid fuels

13 07 02* Petrol

14 06 Waste organic solvents, refrigerants and foam/aerosol propellants

14 06 01* Chlorofluorocarbons, HCFC, HFC

16 01 **End-of-life vehicles from different means of transport (including off-road machinery) and wastes from dismantling of end-of-life vehicles and vehicle maintenance (except 13, 14, 16 06 and 16 08)**

16 01 11* Brake pads containing asbestos

16 02 **Wastes from electrical and electronic equipment**

16 02 09* Transformers and capacitors containing PCBs

16 02 10* Discarded equipment containing or contaminated by PCBs other than those mentioned in 16 02 09

16 02 11* Discarded equipment containing chlorofluorocarbons, HCFC, HFC

16 02 12* Discarded equipment containing free asbestos

16 04 **Waste explosives**

16 04 01* Waste ammunition

16 04 02* Fireworks wastes

16 04 03* Other waste explosives

16 05 **Gases in pressure containers and discarded chemicals**

16 05 04* Gases in pressure containers (including halons) containing dangerous substances

16 09 **Oxidising substances**

16 09 03* Peroxides, e.g. hydrogen peroxide

17 06 **Insulation materials and asbestos-containing construction materials**

17 06 01* Insulation materials containing asbestos

17 06 05* Construction materials containing asbestos

18 01 **Wastes from natal care, diagnosis, treatment or prevention of disease in humans**

18 01 06* Chemicals consisting of or containing dangerous substances

18 01 07 Chemicals other than those mentioned in 18 01 06

18 01 08* Cytotoxic and cytostatic medicines

18 01 09 Medicines other than those mentioned in 18 01 08

18 01 10* Amalgam waste from dental care

18 02 **Astes from research, diagnosis, treatment or prevention of disease involving animals**

18 02 05* Chemicals consisting of or containing dangerous substances

18 02 06 Chemicals other than those mentioned in 18 02 05

18 02 07* Cytotoxic and cytostatic medicines

18 02 08 Medicines other than those mentioned in 18 02 07

20 96 **Other municipal wastes**

20 96 61 Mixed municipal waste

H1 Explosive: substances and preparations which may explode as the result of a flame or which are more sensitive to shock or friction than dinitrobenzene.

H7 Carcinogenic: substances and preparations which, through inhalation, ingestion or skin penetration, may produce cancer or increase the likelihood thereof.

H8 Infectious: materials containing viable micro-organisms or their toxins which are known to cause, or about which there is good reason to believe that they cause, illness in humans or in other living organisms.

H10 Teratogenic: substances and preparations which, through inhalation, ingestion or skin penetration, may produce non-hereditary congenital deformities or increase the likelihood thereof.

H11 Mutagenic: substances and preparations which, through inhalation, ingestion or skin penetration, may produce hereditary genetic defects or increase the likelihood thereof.

H12 Substances and preparations which, in contact with water, air or an acid, emit a toxic or highly toxic gas.

- waste from class B2 hospital and health care activities;
- animal waste;
- PCB / PCT waste.
